Membership Report:

Disciplines Reports:

- Air Pistol –
- AR Competition –
- Black Powder –
- Bolt Gun –
- Bullseye –
- CMP/DCPM –
- Cowboy –
- High Power –
- JROTC –
- Junior Smallbore –
- MPS –
- PPC –
- Smallbore Silhouette –
- Smallbore–
- YSSA –
- Pop & Snacks –
- Grounds / Buildings –

Old Business

- Benchrest Smallbore Time Analysis: Did it show enough interest to support building a smallbore range? Does someone want to volunteer to do detailed analysis?
- Smallbore Range Status:
- 25yd Ventilation Status:
 - New MAUS's
 - New exhaust equipment
 - When will the range shutdown start?
- Property surveying status: Still no meeting with Exel
- Drainage Issues and Excavation Work: We need drainage grading and excavation. We can do other earth moving work at the same time.
 - Re-pour scoring building drive.
 - Need to raise berm that protects 200yd pit
 - Need to rebuild benchrest impact berms
 - It appears that water is working up under the floor of the maintenance building and coming up between the floor and the wall. Excavate to footing and install drain tile and clean rock.
- Project for John Miller's money: Looks like about \$14,000 is available.
 - 4+ person golf cart ← Hold off until availability improves
- New Electrical Service Panel Status: Done
- New Well Status:
- Conventional Pistol Range Safety Issue: Have the plastic, will wait until spring.
- Tree Removal from Competition Range Bay 8: Done
- Need more plywood: Done Purchased 90 sheets of 3/8" plywood because that saved \$2 per sheet
- Larger chain saw for cutting up large falls. Probably something in the 18" – 20" range: Done. Has been tested and it is stored in the job box
- Need to get makeup air working in 25yd range: Done
- Boiler checkup: Done
- New Lock for New Bathroom: The new lock can be left locked when you leave. Have to use key to regain access. Find a lock that can't be left locked when you leave?
- Shotgun shooting in walled ranges:
 - Need to try hog panel
 - Ken has moved logs to backing into a walled range

New Business

- CO Issue: The CO alarm in the 50' day room goes off occasionally
 - Happens when MAU in 25-yd range is run w/o running exhaust
 - Mitigate by running exhaust in 50'?
 - Signage?
- Well and bathroom water issues:
 - Pipes were not frozen.
 - It appears that drilling the new well caused lots of sediment to get into the current well and we believe this has plugged the pipes.
 - Gingerich (well driller) said we need to flush out the well a couple of times - run until dry. I'll start tomorrow.
 - Will probably need a plumber to flush the waterpipes and replace toilet guts after we get well flushed.
- Cowboys want a trailer for SG targets: Marty Frandsen, Mike Bohl, and Paul Reinartz will pay for the trailer and donate it to the club. Mark Millichamp is donating the time and materials to repair the floor and configure it for the blocks of wood. The old trailer will be given to the MPS discipline for moving their long range targets.
- Clean up the bulletin boards: Volunteer to manage this?
 - Maintain 2 boards with "Firing Line" pages
 - One board for club information, one board for member buy/sell/trade, one board for business cards/adverts.
- Website review: Is our current site what we want?
 - Electronic renewals?
 - How to validate NRA standing?
 - Maybe only for those who don't need orientation class?
 - How to get the waiver "signed"?
 - How do we store video files?
 - Drone tour, maybe orientation (for review only), etc.
 - May require using YouTube.
 - Volunteer to take over communication between club and Augie?
- Volunteer for key/combo management:
 - Number the doors?
 - Stamp the keys with the door number?

- New member recruitment (Bob Scheer):
 - I don't think we need more members at this time – we currently have ~1,600
 - Eric VanWinkle has received this feedback from a current member -
"Think there is a big intimidation factor with new people joining the club, and even more so with new gun owners. Not really sure how to help people with that. "
- New overhead map w/graphics: Should update the overhead picture hanging on the wall in the 25-yard range.
 - Move it out from behind the screen so that it can be referenced at orientations
