OLD BUSINESS:

It was stated that Jim had cut off part of the I beams on the 200 yard berm impact area. Part of the dirt work there will continue mid- June.

There was discussion on whether or not to install black plastic on the end of the Conventional impact area to use as a marker if

errant rounds are going over the top of backstop. Jim Granger volunteered to install the black plastic.

Terry Spurrier and Jim Champion will purchase and deliver the hog panel to be used as a back stop for the #1 Walled range. It is an experiment to eliminate the plywood that is being destroyed by excessive shotgun use.

The 25 yard ventilation project is winding down and the payment will be sent after inspection.

The Well Pump work is expected to be going by May 31<sup>st</sup>.

Eric reported the Website Guild will do a mock up of a suggested new site. Coding is possible for a calendar. Eric stated if we want administrators to make changes to the information on the site that there would be a charge of \$9.99 for one person and \$19.99 for three people. Discussion was heard on the subject.

Paul Reinartz from the Cowboys offered to contribute a video for the Cowboys if needed for the website.

Eric suggested that the club history could be used for a multi-use purpose. Eric mentioned the Web Guild is suggesting a link to the host for the website.

Eric will do a mock up survey of Survey Monkey to see if there are ideas for the 100 year celebration. Eric suggested if we plan to do anything we should do a large amount of advertising. There is not too much interest in a picnic at this point. A patch for 100 year was suggested and there was interest in that. Interest in the ECI's and caps is good. Filming a video is still in question.

## NEW BUSINESS:

The question of linking in Cowboy Action Shooting to our existing website was decided against since it is not really part of our club exactly.

The meeting was adjourned at 7:20.
