Call to Order (Jim C.)

Pledge (Jim C.)

Welcome (Jim C.):

Treasurers Report (Steve M.):

Membership Report (Terry S.):

Thanks (Jim C.):

First of all, our club wouldn't run without our volunteers. It is the volunteers that keep our club running, as well as neat, and tidy. Without them, our club just wouldn't function. As I call your name, please stand

- Our board (Bob Scheer, Jeff Siirila, Terry Spurrier, Joyce Taylor, Eric VanWinkle). Would also like to thank Jody Spurrier for all the work she does helping with membership, calendar setting, and sending out the email notifications. – Special thanks to Steve Mathias for his service.
- The Discipline chairs:
  - These are the folks that give their time so that you can participate in those disciplines. Not going to name them all, you can look on the Web site or the 'Firing Line'. You will hear from many of them today as they provide a summary of their activities.
- Maintenance crew:
  - Roger Miller, Jim Granger, Ken Nelson, Stan DeMay, Chuck Hovonick, Jim Dugan, Allen Furrow and others I've forgotten – my apologies to them.
- Cleaning crew:
  - Arlene Ries, Dave Pearce, Jerry Kristan, Nick Pappas, Joyce Taylor
- Mowing crew:
  - Dan Winters, Dick Hunt, Jeff Preston, Ken Nelson, Bill Erickson, Rick Freemann, Blake Anderson, and Jerry Sadler
- Anybody who has a volunteer membership – please stand

I know I have forgotten people, and I apologize – you are appreciated. Remember, we are a private that relies on volunteers to keep it running at a reasonable cost - **Just look at all the people standing**. They all deserve a round of applause.

Also,

- Springfield Armory donated the two (2) guns we are raffling today.
- B & B Hardware: They have stored the guns that Springfield has donated to the club and will be processing the paperwork. Reminder, the winners will need to pay the transfer fee and follow all the appropriate state and federal firearms laws.

This said, if you want to stand next year, there are sign-up sheets for 4 different maintenance projects at the club at the raffle table. These are 1-time projects, not a lifetime commitment.

## Project review (Joyce) –

Here is a quick rundown of the projects we completed this year at your club:

- The website was updated with calendar search and is new mobile friendly.
- New ventilation system for 25-yd range.
- The roofs on the 25-yd and 50-ft indoor ranges were replaced. Also new gutters.
- Standby generator added below the hill. We will have water in a power failure. There is a red light on the block building – if it is on, call a board member.
- The hanging heater in the 50-ft range day room was replaced.
- The man door on the 50-ft range was replaced with closer and a key pad entry lock.
- We added a window to the 25-yd man door.
- Golf cart purchased with John Miller memorial monies.
- Finished the new well and decommissioned the old well.
- Grading and Dirt Moving:
  - Graded around the scoring building and maintenance building to improve drainage.
  - Rebuilt the benchrest impact berms.
  - Dredged the creeks and added rip-rap.
  - Rebuilt the 200-yd impact berm.
  - Drainage work in competition range.
- Smallbore range (Jim Granger).
  - Removed trees that were in the way
  - Regraded the flyway and impact berm
  - Set rock base for the concrete pad

These are items we have approved the expenditures, but have not been completed:

- Finish smallbore range
  - Pour concrete shooting pad, build awning over shooting pad, and build shooting benches.
- Rebuild the 300/600 pit
  - Plans for this year cancelled due to weather and material availability issues
  - Will be revisiting in early fall and start when the High-Power season is over
- Upgrade the conventional pistol range baffles and impact berm

Please attend the board meetings if there is something that you feel needs doing. It is your input that provides the direction to the board.
